

01 SATURDAY ROUTE SHEET

Cornubia → Mann River, ≈490 km. Road-level directions — set your Garmin for the junction detail, especially getting out of Cornubia, the Bruxner turn at Casino, and through Grafton.

KM	DIRECTION
0	FILL Cornubia — 7-Eleven, 1905 Pacific Hwy. Head south-west to Beaudesert. Beenleigh–Beaudesert Road or the Mt Lindesay Highway both run ≈48 km — take whichever you normally use.
48	JOIN Beaudesert . Pick up the Mt Lindesay Highway southbound. Roll through.
75	TURN Rathdowney . Leave the highway onto Running Creek Road , signposted Lions Road / Border Loop. Coffee here.
75–154	LIONS ROAD . Running Creek Road becomes Lions Road, crosses the border at Richmond Gap and follows Grady's Creek down the NSW side. Border Loop lookout is a signposted left, five minutes, worth it. Watch the timber bridges, causeways and cattle grids.
154	TURN Lions Road ends at the Summerland Way . Turn left , signposted Kyogle — southbound, through Wiangaree.
160	FUEL 1 Kyogle — BP. Continue south on the Summerland Way (B91).
193	TOP-UP Casino . Ollie splashes fuel here — not optional . Turn west onto the Bruxner Highway (B60) toward Tabulam — not south on the Summerland Way.
231	TURN Clarence Way at Sandilands , signposted, turn left (south) off the Bruxner toward Baryulgil.
231–351	CLARENCE WAY . ≈120 km down the Clarence River valley through Baryulgil, Eighteen Mile and Copmanhurst. ≈25 km unsealed (Clarence Valley Council: 14.01 km Copmanhurst–Baryulgil, 10.84 km Baryulgil–boundary). Winding, hilly, quiet. River road: check Live Traffic for flooding.
351	FUEL 2 Grafton — lunch at the Crown , 1 Prince St, north bank, booked 45 min, 02 6642 4000. Firewood. Then cross to South Grafton for the Gwydir Highway (B76) westbound.
401	FUEL 3 Jackadgery . Mann River Caravan Park, on the highway. Last fuel — 8am–5pm off season, ring Friday. Continue west.
430–490	Long climb through the Gibraltar Range , past Washpool National Park. The best road of the day after Lions Road.
476	TURN Old Grafton Road (Diehard), signposted, on your right. Leave the highway. Glen Innes is a further 21 km west if anyone needs it.
478	≈2 km unsealed , then the road seals again.
492	14 km of steep sealed descent down Big Hill to river level, then 150 m of gravel to the Mann River campground entrance. Sites 13, 14 & 15.

BAIL-OUT — THE SUMMERLAND WAY

If you are **running late at Casino**, or Live Traffic shows the Clarence Way closed or flooded: turn **south** on the Summerland Way (B91) and run the 110 km straight through Whiporie to Grafton.
Saves **≈48 km and about an hour** — camp by ≈15:00. Subtract 48 from every km marker after Casino. It is dull, but it is not dark.

JACKADGERY IS THE WHOLE PLAN

A caravan park, not a servo — one bowser, **8am–5pm off season**, easy to ride past. **Ring 02 6647 4662 on the Friday**. If shut, Ollie runs Grafton fuel plus the bladder: still reaches Grafton on Sunday, margin gone — at which point Plan B is the sensible call.

WHAT THIS SHEET IS, AND IS NOT

Road-level directions – which highway, which junction, which way to turn. Not junction-by-junction navigation. Distances between fixed points are estimates; the NPWS-sourced ones are Grafton to the turnoff (125 km), turnoff to camp (16 km), turnoff to Glen Innes (37 km) and Old Grafton Road (≈130 km).

Load it into the Garmin and download it offline before you leave home – there is no reception to fix a routing problem out there.
